## CAREER OBJECTIVE:

Detail-oriented and analytical Data Analyst with strong skills in Python, SQL, Excel, Power BI, and Machine Learning. Experienced in data preprocessing, visualization, and dashboard development, with hands-on exposure to real-world projects and internships. Seeking to leverage analytical expertise and problem-solving abilities to deliver data-driven insights and support business decision-making.

## EDUCATION

|                                               |                                                                                                                                                                                                                                                                                                                                                        |

| 10 Jun, 2024 - 25 Jul,<br>2024 | <b>MERN Stack Intern</b><br>Completed a 6-week internship at Grastech, contributing to frontend projects using React.js, HTML, CSS, Bootstrap, and Tailwind CSS. Gained practical experience with Node.js, Express.js, MongoDB, Figma, and Adobe while enhancing skills in component development and UI design. |
| Grastech, Noida                |                                                                                                                                                                                                                                                                                                                 |

01 May, 2024 - 31  
May, 2024  
NovaNectar Services  
Pvt. Ltd. , Dehradun  
Uttrakhand

**Web Development Intern**

- Completed a one-month internship focused on front-end web development.
- Gained practical experience with HTML, CSS, and JavaScript.
- Developed responsive web pages with a focus on clean UI design.
- Understood core principles of web layout, styling, and user interaction.

**PROJECTS**

---

10 feb - 11 june 2025

**AI-Based Career Coach Web Application**

Major project (4<sup>th</sup> sem)

- Built a web app that generates AI-driven resumes, cover letters, and provides industry insights using Gemini API
- Used React.js, Next.js, and ShadCN for frontend; Node.js, Express.js, and PostgreSQL for backend
- Deployed and managed backend services using Neon Console

Oct 2024- dec 2024

**Movie Recommendation System**

Data Science  
Assignment

- Developed a recommendation system that suggests movies based on user preferences using similarity algorithms
- Implemented collaborative filtering and content-based filtering techniques on user-rating datasets
- Technologies used: Python, Pandas, NumPy, Scikit-learn, Jupyter Notebook, Matplotlib

sep 2024 – oct 2024

**Dashboard Project (During Internship at True Software)**

Data Analyst Intern

- Created interactive dashboards using Excel and Power BI.
- Used Power Query and DAX for data transformation and insights.
- Visualized business metrics to support data-driven decisions.

**TECHNICAL SKILLS**

---

- Programming Languages: Python
- Data Science & Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel
- Web Development: HTML, CSS, js., Bootstrap
- Database Technologies: MySQL
- Tools: Jupyter Notebook, Git, VS Code

**OTHER CERTIFICATES**

---

- Python 3.4.3 Training, Spoken Tutorial Project, IIT Bombay
- HTML Training, Spoken Tutorial Project, IIT Bombay
- Workshop About Roadmap to Become Full Stack Developer, Softpro India
- Certificate in Exploration of the Solar System

## SOFT SKILLS

---

- Effective Communication
- Team Collaboration
- Leadership and Mentoring
- Time Management
- Problem Solving

## INTERESTS/HOBBIES

---

- Reading Story Books
  - Gardening
  - Badminton
  - Drawing
-
